Message from the Board of Trustees Chairman

Midwest University is unique in that it has a distinctly international student body. Midwest University aims to develop knowledgeable students from all around world. During the last several decades, Midwest graduates from around 70 nations have served as experts in their professional areas. Students who are seeking a quality education with a worldview can certainly find a home at Midwest.

Our school takes seriously the responsibility to educate people from all over the world. Midwest University is a great resource for students who desire to be well-equipped to apply their learning to teaching and counseling others.

Midwest offers programs at both the Wentzville, MO campus and the Washington, D.C. campus that will provide opportunities for students to develop their God-given gifts and abilities. Students may expand their horizons by taking advantage of both our face-to-face and e-learning classes.

If you would like to develop a world vision, I highly encourage you to join Midwest University. I urge you to contact us or visit in-person to find out more about Midwest University. This could be the opportunity you are looking for to develop the next chapter of your academic future.

May God Bless You,

**Dr. Lindell F. Shumake**
Former MO State Representative
Midwest University Board Chairman
Message from the Founder / President

What are you doing to achieve your educational goals?

Continuing one’s education is necessary for a leader in today’s world, regardless of the field he/she is serving in, simply because he/she should be able to envision the future for others. For leadership in the twenty-first century, all relevant education and training acquired to date is insufficient for effective leadership.

In today’s world of incessant change, it is imperative to have the responsibility to equip oneself with knowledge, heart, spirit, and leadership. It is essential to cooperate with one another and to share the knowledge students have learned to build team synergy.

We are here to challenge the world with educational programs characterized by vision, honesty, faithfulness, integrity, and responsibility. We need to do our best to develop these characteristics and to build important leadership skills that contribute to the enhancement of our communities, societies, and countries by being valuable lights and salt for the world we live in.

God Bless You,

James Song, Ph.D.
Founder / President
General Information

Midwest University Campus in Wentzville, MO
GENERAL INFORMATION

Midwest University is a private institution of higher education that exists to provide all students with an education designed to prepare them for success in their careers by enhancing their spiritual, social, leadership skills, and intellectual gifts and abilities. With the main campus in the St. Louis metropolitan area city of Wentzville, Missouri, and a Washington, D.C. campus, Midwest University offers face-to-face courses, blended courses, and e-learning / distance education opportunities. Midwest University also has offices located in Seoul, South Korea; Lima, Peru; Bangkok, Thailand; and Ho Chi Minh City, Vietnam for student advising and student recruitment.

Midwest University is committed to providing students with outstanding learning opportunities in an environment of rigorous academic work, which prepares them for success in their chosen fields of study. The small-class paradigm enhances a personalized learning atmosphere between professors and students.

HISTORY

In June 1986, Midwest University was founded with Dr. James Song as its first president. Midwest University began offering educational programs designed to develop knowledgeable and well-rounded students with leadership skills.

By 1992, Midwest University achieved associate status with the Transnational Association of Christian Schools (TRACS).

In September 1993, Midwest University established the campus in Wentzville, Missouri. Midwest University extended the campus by building classrooms, a dining room, and an auditorium over the following two years. In 1996, faculty apartments were built, and in 1999, the residence halls were built.

In 2000, Midwest University achieved accredited status from the Transnational Association of Christian Colleges and Schools (TRACS). TRACS, recognized by the Council for Higher Education Accreditation (CHEA), is authorized by the following institutions to participate in their programs: the U.S. Department of Education’s Title IV Federal Student Aid program and the Montgomery GI Educational Benefits program for veterans, active duty, reserve, and National Guard personnel.

In 2004, Midwest University’s graduate programs were accredited by TRACS. By April 2005, Midwest University was granted accreditation for its baccalaureate program with concentrations in education, biblical studies, and church music. To reflect a reorganization of the institution and new electives in the graduate level education, the institution was approved by TRACS to change its name from Midwest College and Theological Seminary to Midwest University. The Mission Center was erected in August 2004.

In 2006, the institution was accredited for its D. Min. in social work program as well as the Teachers of English to Speakers of Other Languages (TESOL) program. Also during 2006, in keeping with its mission of developing mutual exchange and understanding among the nations, Midwest University was approved to participate in the U.S. Department of State’s Exchange Visitor Program for J-1 research scholars.

In 2008, Midwest University was granted approval for an additional teaching site located in Washington, DC.

On November 3, 2009, Midwest University was granted reaffirmation by TRACS.

On October 29, 2010, Midwest University’s Board of Trustees requested that the TRACS Accreditation Commission withdraw its recognition of Midwest University. TRACS Accreditation Commission honored this request.

On November 8, 2011, Midwest University was granted applicant status at the institutional level with the Commission on Accreditation of the Association for Biblical Higher Education (ABHE), www.abhe.org.

On June 20, 2012, Midwest University Graduate School of Theology was granted Associate Member status with the Association of Theological Schools in the United States and Canada (ATS). ATS is the primary accrediting body for seminaries in the United States and Canada. Midwest University Graduate School of Theology has begun the process of pursuing candidacy status and membership with ATS (www.ats.edu).

On February 20, 2015, Midwest University was granted Accredited status with the Commission on Accreditation of ABHE.

On May 13, 2015, Midwest University was approved for two additional teaching sites in Lima, Peru and Bangkok, Thailand by ABHE.

On November 2, 2015, Midwest University was approved to offer a Master of Business Administration (MBA) program by ABHE.
On February 8, 2017, Midwest University was approved to offer a Bachelor of Science in Aviation Management program by ABHE.
On September 19, 2017, Midwest University was approved to offer MA in Gifted Education, MBA in Public Policy/Administration, and Doctor of Leadership in Brain/Gifted Education programs by ABHE.
On December 22, 2017, Midwest University was approved to offer a Doctor of Philosophy in Leadership program by ABHE.
On January 23, 2018, Midwest University was approved to offer a Doctor of Musical Arts program by ABHE.
On July 12, 2019, Midwest University was approved to offer a Ph. D in Counseling Psychology program by ABHE.
On August 23, 2019, Midwest University was approved as an institutional participant in the SARA initiative by NC-SARA.

Midwest University continually strives to provide our students with the best possible opportunities to be successful in their chosen careers. Annual student and alumni survey results indicate that we are progressing in accomplishing our program and institutional goals.
STUDENT ACHIEVEMENT

The 2018-2019 academic year surveys revealed:

- 100% of the students in 24 residential courses agreed that the course learning outcomes were accomplished by the semester’s end. (CLO Surveys A-C)
- 94% responded that their studies met their expectations and were challenging. 96.5% indicated that their professors were either excellent or good and that they would recommend Midwest University to potential students. (Exit Survey SA 200)
- 97% of the alumni responding to the survey are working full time or part time in their major fields of study. 100% indicated their faculty had been either excellent or good and 97% noted that their studies had positively impacted their careers. 8 alumni have received an award or special recognition since graduation. 13 have been published in books or journals. 100% would recommend studying at Midwest University. (Survey SA 201R)

Missouri Secretary of State
BIBLICAL FOUNDATIONS STATEMENT

The Bible in its entirety is the inspired Word of God, infallible, sufficient, and authoritative for faith and practice.

There is one God, eternally self-existent in three Persons: Father, Son, and Holy Spirit.

God, through the Word, created the heavens and the earth, and all that is in them for His own good purpose.

Jesus Christ, born of a virgin, is God who came in the flesh; His death provides substitutionary atonement for our sins; He rose bodily from the dead and ascended to the right hand of God the Father where He intercedes for the believers.

The Holy Spirit indwells believers to enable them to live godly lives and empowers the Church to carry out Christ’s Great Commission.

The human race was created in the image of God, fell after being tempted by Satan, and because of sinfulness, is inherently in need of salvation found exclusively in Jesus Christ through faith by the power of the Holy Spirit.

The one holy Christian Church, the body of Christ, includes all who have come to faith in Jesus Christ.

Jesus Christ will return to earth in the Second Advent to judge the living and the dead, to consummate, and to fulfill His purpose in the works of creation and redemption with eternal rewards and punishment.
LOCATIONS

The main campus of Midwest University is located in Wentzville, MO, part of the Greater St. Louis area. Midwest University’s campus is easily accessible by airplane or automobile. Wentzville is approximately 28 miles west of St. Louis International Airport and is accessible by I-70 and I-40/64. St. Louis, located on the Mississippi River, is world famous as the Gateway to the West. The city provides students with a number of academic, cultural, and recreational opportunities while participating in our learning center.

Midwest University also offers courses at the Washington, D.C. location in Annandale, Virginia. In addition, Midwest University has an office located in Seoul, South Korea for student recruitment and student advising.

Directions to Midwest University

If traveling I-70 west, take Exit 212, turn right onto Route A. Travel west approximately two miles, and make a right turn onto Parr Road. From I-40/64, take the Route A (Wentzville Parkway) exit, and travel east approximately 1 mile. Turn left onto Parr Road. Midwest is approximately ½ mile down Parr Road, on the left (west) side.

MISSION

Midwest University exists to provide men and women with a biblically-based higher education designed to prepare them for success in their careers in ministry and in secular service by enhancing their spiritual, social, and intellectual gifts and abilities.

INSTITUTIONAL GOALS

Students completing their education at Midwest University will

1. investigate five areas of general knowledge: communication, humanities, natural sciences, social sciences, and philosophy with an emphasis on an understanding of how one’s values translate into a worldview as well as the ability to build leadership skills.
2. engage with university personnel who exhibit integrity in relationships and model a culture that seeks excellence in all that it pursues.
3. pursue an understanding of God and His will for their lives.
4. structure their understanding of a profession and formulate strategies for developing an occupation that reflects best practices in the profession.
5. encounter a wholistic education appropriate to the enrolled students that develops each student spiritually, physically, intellectually, emotionally, and socially.
6. experience effective teaching from faculty who are qualified academically and experientially to teach in their assigned field and at the assigned education levels, who possess the spiritual and ministerial formation to mentor students toward their desired ministry area, and who are involved appropriately in faculty governance at the institution.
7. have access to learning resources on campus and online to support their education.

PHILOSOPHY

Midwest University acknowledges that all people—regardless of gender, age, or ethnic background—have been given abilities by God and need guidance through education to develop those gifts. Because of this need, Midwest University strives to develop quality educational programs providing systematic and comprehensive academic training from a Christocentric perspective in a curriculum taught by qualified, experienced, and dedicated faculty.

STATEMENT OF ETHICAL BELIEFS

As a distinctly Christian institution of higher education, Midwest University strongly adheres to the principles of:

- promotion of the highest academic standards of teaching and learning
- respect for the rights of all persons, including the larger global community
- commitment to justice, mercy, and caring service
- promotion of a true Christian lifestyle
Midwest University approved bachelor’s, master’s, and doctoral degree programs

TRANSCRIPTS

All grades are permanently recorded. The Office of Academic Records and the Registrar keep the files secure and private. All academic work completed at Midwest University, as well as those transferred from other institutions of higher education and/or from relevant levels of education, is a part of each student’s file.

Academic records are available only to the student or by those whom the student properly authorizes. All records are regarded as confidential and are never released to any unauthorized persons. Before students request a transcript, a clear for holds and necessary information must first be verified. Requests for transcripts should be directed to the Registrar’s office.

INFECTIOUS DISEASES POLICY

It is the policy of Midwest University that the presence of HIV/AIDS or AIDS related diseases does not prohibit an individual from being admitted as a student or as an employee. Each case will be reviewed individually to see if all admissions criteria are met, including certain prescribed moral standards. If an HIV/AIDS patient is admitted, it is expected that this information will be noted on a physician’s report prior to the beginning of the semester. Certain immunization requirements may be waived for students with HIV/AIDS on advice from physician. If a student has a communicable disease, he/she should inform the Director of Student Services. Employee members are responsible for informing an administrator of any health issues. All such information will be held in confidence and shared only in the case of a medical emergency.

GRADUATION HONORS AND AWARDS

Students who complete their program with a cumulative GPA of 3.50 receive honors and graduate cum laude. Students with a cumulative 3.75 GPA receive honors and graduate magna cum laude. Students who graduate with a cumulative GPA of 3.90 receive honors and graduate summa cum laude.

CHRISTIAN SERVICE PROGRAM

Midwest University seeks to prepare all students for Christian life and ministries in local churches or communities by encouraging them to be involved in practical Christian services to develop their personal character, integrity, godliness, commitment, and social skills in the context of a global atmosphere. The Christian Service Program (CSP) at Midwest University is mandatory for all students. If students do not participate in this program, they may not receive their diploma until the CSP requirements are fulfilled. This program provides students with experiences outside the classroom through on-campus chapel services, local churches, campus projects, and community service.
STUDENT GOVERNMENT

All students at Midwest University are encouraged to participate in the student government. The student government works to promote structure for student expression and self-government. It was organized to serve as a voice for the student body to communicate with university administration and trustees, to cooperate with the faculty and administration in the daily function of the university, to advance the welfare of the university, and to promote an awareness of and interest in the vital issues affecting the university community. Each May, the student government elects officers who will serve as the student government leadership who will work with the Assistant Dean of Student Affairs.

RESIDENCE HALL REGULATIONS

Midwest University offers on-campus housing for students living in the residence hall and strives to provide a safe, convenient, and affordable living space. On-campus housing is designed to provide an environment that complements the academic, spiritual, social, and recreational experience at Midwest University.

The two-floor residence hall for single or married students provides economical accommodations and convenient access to campus facilities. All rooms are beautifully designed and fully furnished with two queen-sized beds, a bureau, two desks, two chairs, and two spacious closets. Each room includes a private bathroom. Laundry rooms are furnished with washing machines and dryers. Students generally share a room. The residence hall also has a spacious and comfortable recreation room.

Incoming students who want to reserve a space in the residence hall are required to contact Midwest’s Business Office. The Business Office will mail a Residence Hall Contract to the student. In order to secure a room reservation, the contract must be signed and returned to Midwest’s Business Office along with a $700 security deposit, provided admission has been granted and there is an available room for the student in the dorm. Room assignments are awarded on a first-deposits-received, first-spaces-awarded basis. Please see the Financial Information page for residence hall fees.

All student residents are expected to maintain full-time status, remain in good academic standing, and make satisfactory academic progress. Permission to continue residency is contingent upon meeting these criteria.

It is expected that each student become acquainted with, and comply with, all the rules and regulations pertaining to campus conduct and housing. At the beginning of each semester, there will be a mandatory meeting for all residents. At this time, the residence hall and campus policies will be explained. Students will be required to sign a statement that they have read, understand, and agree to uphold all residence hall regulations.

If a student moves out of the residence hall during the contract period, whether voluntarily or involuntarily, the housing deposit will be forfeited, and a refund will be assessed on a pro-rated basis. The residence hall deposit is non-refundable for any student who fails to maintain good academic standing or make satisfactory progress.

For further information regarding Midwest’s on-campus housing or help with relocating to the St. Louis area, you may contact Midwest’s Business Office by e-mail at usa@midwest.edu or by calling (636) 327-4645 and asking to speak with the Director of the Business Office.
Admission Policies and Procedures
ADMISSION POLICIES

Admission to Midwest University is open to all persons regardless of race, color, gender, handicap, nationality, ethnic origin, or personal Christian commitment. The Office of Admissions compiles applicants’ academic records, including letters of recommendation and personal information. Completed files will be forwarded to the Admissions Committee for application reviews. *Final admission status will be at the discretion of the Admissions Committee.

Admissions decisions may have the following results:

**Full Admission:** Applicant meets all qualifications to be admitted to the academic program that he/she will pursue.

**Provisional Admission:** If an applicant’s admission documents and/or academic qualifications appear to be incomplete and/or needed, the student may enroll as a full- or part-time student pending the receipt of the necessary documents as noted in the Midwest University admission letter. Provisionally admitted students must have all required documents and actions cleared by the end of the semester or term in which they were provisionally enrolled. Failure to comply with these regulations will result in a possible denial of registration for subsequent terms and a loss of student status.

Examples of Reasons for Provisional Admission Status:

- Incomplete transcripts from previous institutions
- Required letter of recommendation not received

**Probationary Admission:** Admission is granted under certain conditions in which the applicant will be required to demonstrate his/her abilities to complete his/her academic program at Midwest University. The guidelines are as follows:

- Undergraduate candidates must achieve a minimum Grade Point Average (GPA) of at least a 3.0 in the first 12 credit hours of academic work.
- Graduate students must achieve a minimum Grade Point Average of at least a 3.5 in the first 9 credit hours of academic work.

Upon successful completion of these requirements, he/she will be granted Full Admission status.

ADMISSION PROCEDURES

Midwest University accepts applications at all times. When the review of the potential student’s application is complete, the file will be submitted to the Admissions Committee for review, and applicants will subsequently be notified of the admission decision.
INTERNATIONAL STUDENTS

SEVIS I-20

Midwest University requires that all international students (F-1 visa status) whose primary language is not English take 12 notational credits of ESL (English as a Second Language) before or concurrent with their academic program. Students will be tested for current levels of English proficiency to place students in the appropriate level of English as a Second Language study. Testing is based on scores on written, aural, and verbal instruments.

International students studying at Midwest University must adhere to immigration laws in order to maintain their F-1 visa status. Consistent and timely registration and completion of courses is vital. Along with academic requirements, students are required to adhere to all Midwest University policies.

Maintaining Your Status: It is important to maintain legal immigration status while in the United States. Therefore it is recommended to contact the International Student Officer for more information regarding the rules and regulations of maintaining F-1 (and F-2) status. All international students will be required to sign a statement regarding maintaining status.

We also suggest that you refer to the information on the following web sites:

INTERNATIONAL STUDENT ADVISING

The International Student Office is responsible for assisting students with immigration requirements to study at Midwest University. All academic issues should be discussed with your academic advisor. Document requests may take up to 10 days to be fulfilled. In order to ensure timely handling of your inquiries, it is best to call for an appointment with the International Student Officer for more information on document request procedures. Upon arrival at Midwest, please register at the reception window, at which you will find document request forms. All international students will receive additional information at the International Student Orientation, given at the beginning of each semester.

International SEVIS I-20 Students

Midwest University is approved by the U.S. Department of Homeland Security, a division of the U.S. Citizenship and Immigration Services (USCIS), to issue Form I-20 to non-immigrant students. However, these documents will not be issued until prospective international students have submitted all required documents, the Admissions Committee has reviewed the file, and official acceptance has been achieved.

Before Midwest University will issue a student SEVIS I-20:
All necessary forms must be turned in and a non-refundable application fee of $100, document handling fee of $100, and I-901 Form fee of $350 must be paid. International SEVIS I-20 students are required to pay a SEVIS maintenance fee of $200 in the first semester and $100 for the second semester. This fee is for administration services and document assistance.

1. If students do not adhere to University policies regarding enrollment, registration, employment, and proper conduct in a way that will affect their immigration status, the university reports these violations to the USCIS.
2. Students must follow all rules and regulations of Midwest University.
3. Students must register and pay for residence hall occupancy by the required deadline.
4. F-1 students must be enrolled full-time during fall and spring semesters. A maximum of 3 credit hours of online/distance education per semester may be taken. The remaining course load must be taken at the Midwest University campus and/or site. For more information, contact the admissions office at the main campus.
INTERNATIONAL STUDENT TRANSFER PROCEDURES

Transfers to Midwest:
All international students with F-1 student status who are transferring from other U.S. institutions to Midwest University are required to submit an authorized transfer request form to Midwest. After being accepted to Midwest, students must prove that they are in good standing with their current school and are in compliance with U.S. immigration laws.
Students must also show proof of financial capacity to support their living and education expense for the duration of their stay in the U.S. Only a current bank deposit or a letter of support from a corporation, bank, or other sponsoring organization may serve as proof of financial capacity.

Transfers from Midwest:
It is mandatory for F-1 students transferring from Midwest University to another school to meet with his or her academic advisor and the International Student Officer. Students must complete a transfer request form, present a letter of acceptance from the accepting school, and complete an Exit Form. Midwest University will coordinate with the other school to ensure that the I-20 is properly transferred. It is the student’s responsibility to begin the transfer process in a timely manner.
J-1 EXCHANGE VISITOR PROGRAM

Midwest University is designated by the U.S. Department of State (DoS) as an exchange visitor program sponsor for international interchange students, professors and researchers, and student interns. Midwest University sponsors exchange visitors for a variety of educational objectives including: studying, teaching, research, observation, conducting research, training, or demonstrating special skills. The purpose of the J-1 exchange visitor program is to enhance understanding between the people of the United States and people of other countries through educational and cultural exchanges.

The Midwest International Research Institute (MIRI) is devoted to helping with all immigration matters for exchange professors, research scholars, and student interns while in the United States.

1) **Professor**: This category is for a foreign national who enters the United States for the primary purpose of teaching, lecturing, observing or consulting at accredited post-secondary academic institutions, museums, libraries, or similar types of institutions. A professor may also conduct research, unless disallowed by the sponsoring organization. If foreign professors would like to be hosted at Midwest University as a J-1 Exchange Visitor under the Professor category, they must be invited by a Midwest University Faculty member who is willing to host them through their department.

2) **Research Scholar**: this category is for a foreign national who enters the United States for the primary purpose of conducting research, observing, or consulting in connection with research projects at research institutions, corporate research facilities, museums, libraries, post-secondary accredited academic institutions, or similar types of institutions.

3) **Student Intern**: this category is for students who want to come to the United States to learn the US system through fields such as Affiliated Institute in State Government, City-Municipal administration, intern, public institutions, business areas, and so on. Students may continue to apply for the permanent resident status or H-1 visa if the employer wants to hire them.

At the conclusion of their program, participants are expected to return to their home countries. Some categories of the Exchange Visitor Program permit a spouse and/or unmarried children under 21 years of age to accompany an exchange visitor to the United States. These individuals are considered dependents of the J-1 visitor and may apply for J-2 visas with the permission of the sponsor, Midwest University. The program is identified as Exchange Visitor Program No P-1-21241.
NONDISCRIMINATORY POLICY

Midwest University admits students from all backgrounds to experience all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, gender, disability, or national/ethnic origin in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.

POLICY FOR DISABLED STUDENTS

Midwest University complies with Section 504 of the Rehabilitation Act of 1973, which states: “No otherwise qualified handicapped individual in the United States shall solely, by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.” A physically challenged person needing additional help should contact the Director of Student Affairs so that appropriate assistance can be provided. Midwest University does not discriminate on the basis of physical handicap.
Academic Policies and Procedure
ACADEMIC INFORMATION

STUDENT CLASSIFICATIONS:

Undergraduate Students: Students holding a high school diploma or equivalent from a recognized institution and working toward a bachelor’s degree

Graduate Students: Students holding a previously earned college degree and working toward a graduate degree

Full-Time Students:
- Undergraduate students enrolled in 12-21 credit hours per semester
- Master’s students enrolled in 9-18 credit hours per semester
- Doctoral students enrolled 9-12 credit hours per semester

Part-Time Students: Those who are not full-time students

Special Students: Students who are taking courses of their own choosing for credit but are not following a regular course of study

Auditors: Students who are attending classes but are not receiving credit; tuition and fees are the same as those taken for credit

STUDY OPTIONS

Midwest University offers the following teaching methods:

On-campus courses
These courses are conventional, face-to-face courses in a classroom setting on the main campus and the Washington, D.C. campus. Each course meets weekly for 15 weeks in the fall or spring semester.

E-learning courses
E-learning courses are accomplished via the Internet through CAMS. Most courses are 15 weeks in length, with some being 8 weeks.

Blended courses
Blended courses provide students an opportunity to complete courses through the combination of classroom and e-learning course work. Each course will consist of an intensive seminar and the remainder of the course will be completed via e-learning.

Independent Studies
Independent Studies may be defined as study which is under the direct supervision of an appropriate faculty member but is not done in conjunction with a regularly scheduled class. An Independent Study request will generally be approved only if the course is required for graduation and is not going to be offered on a regular schedule prior to graduation.
COURSE ATTENDANCE

Midwest University believes that all students are fully responsible for complying with attendance policies and requirements indicated in each course syllabus. Attendance, in courses for academic credit, is mandatory. Each student should recognize that many vital educational experiences at the University cannot be fully realized when class attendance is irregular. As a general rule, students are expected to attend all class sessions of every course. While each instructor is responsible for her/his own course attendance policies, students who are absent for more than three (3) hours in an intensive-course and six (6) hours in a semester course will be recommended for possible disciplinary action including a potential failing grade for the course. Tardiness of more than 10 minutes counts as one hour of absence. In the event of unavoidable absences, the student is responsible for contacting the instructor and is responsible for the completion of all missed course assignments.

The instructor may give advanced written warning to a student for excessive absences and report to the Registrar. The instructor will consult with the Academic Dean regarding students who may become subject to academic penalties for incomplete or unacceptable make-up work or for excessive or unexcused absences. Midwest University, through the Office of Academic Affairs, reserves the right to involuntarily remove enrolled students from classes when course attendance policies are not followed.

ACADEMIC CALENDAR

The dates represent activities planned, and are tentative dates and, therefore, may change. The most current academic calendar will be made available on the Midwest University homepage, www.midwest.edu. Course sequences can be found in the CAMS Student Portal.

DEFINITION OF CREDIT HOUR

A credit hour is based on a class period of fifty (50) minutes in length once a week for an entire semester. A semester is typically fifteen weeks in length. A typical three-hour course would meet for three 50-minute session throughout the semester. Some courses will be offered using online components and using other delivery systems. In such cases, the course will follow the Carnegie guidelines for course construction. The Carnegie guidelines expect two hours of work for each hour in class. Therefore, a three-hour course that has 45 hours of seat time would have an additional 90 hours outside the classroom. Using this as a basic standard, courses are constructed in the following manner: a three-hour course will require 120-130 hours of work, including class sessions, online videos, reading, written assignments, and other requirements.
ADDING / DROPPING A COURSE

Adding a Course: After consulting with, and receiving written approval from an academic advisor, students desiring to add a course will deliver the Course Addition Form to the Office of the Registrar. After financial requirements have been met through the Finance Office, documentation will be sent to the Office of the Registrar which will complete the enrollment requirements. The deadline for adding a course is two weeks after the start date of the semester.

Dropping a Course: A regular semester course may be dropped before the end of the second week of the semester. Students should consult with, and receive approval from, the academic advisor to drop a course or courses. The student will deliver the Course Drop Form signed by their academic advisor to the Office of the Registrar.

Withdrawal from a Course
After the drop period, a student may withdraw from a regular semester or e-learning course without complete withdrawal from the university. In such cases, the student should request withdrawal from the course by submitting a Class Withdrawal Form to the Registrar. The student will receive a grade of “W” for the class.

COURSE LOAD

A student must take at least 12 credit hours per semester to be considered a full-time undergraduate student. The maximum credit hours that an undergraduate student can take per semester (including terms) is 21 credit hours. A full-time master level student must take at least 9 credit hours per semester. The maximum credit hours that a master level student can take per semester (including terms) is 18 credit hours. A full-time doctoral student must take at least 9 credit hours per semester. The maximum credit hours that a doctoral student can take per semester (including terms) is 12 credit hours. A semester load of more than the maximum credit hours of each program requires permission from the Academic Dean.

ACADEMIC PROBATION

Undergraduate students must maintain a minimum cumulative grade point average (GPA) of 2.0 in all academic work. Graduate students must maintain the minimum cumulative 3.0 GPA in all academic work. Students who fail to meet these minimum requirements will be placed under academic probation.

The office of Academic Records and Registrar will notify students whose cumulative GPA fall below the minimum cumulative GPA requirement. These students may take any number of credit hours for the following semester but are required to raise their cumulative GPA as soon as possible to meet the minimum requirements within one semester. Students who are unable to earn a GPA of the minimum requirements for two consecutive semesters will be suspended for the minimum of one semester. Once suspended, the student may re-apply for probationary admission.
WITHDRAWAL PROCEDURE

Students who want to withdraw from the university are required to notify the Office of Academic Records and Registrar and fill out the necessary withdrawal forms. When the student wishes to re-enroll, he/she is expected to file readmission forms through the Office of Admissions and to follow the admission process thereafter.

RE-ADMISSION

Former students seeking readmission after an absence of one or more years are required to apply for readmission, which is the same as the original application process for admission. A student who has been placed on academic suspension is eligible to apply for probationary readmission only after one semester has passed.

RESIDENCY REQUIREMENTS

Residency is defined as classes taken at Midwest University either on campus or on-line. Bachelor and master-level students, excluding international students, may complete a degree through e-learning courses. Doctoral students are required to pass a 3-credit hour dissertation research seminar course at the Wentzville campus or the Washington, D.C. campus. In special cases, the course could be taken through e-learning.

POLICY FOR TRANSFER STUDENTS AND CREDITS

Transfer credit is accepted from accredited institutions of higher education for subjects appropriate to the curricula of the Midwest University programs. All applicants must submit all previous official original transcripts from previously attended colleges/universities to the admissions office. In addition to the transcript, it is sometimes necessary to provide a catalog, course descriptions, or other documentation from the former college or university to help determine the content and applicability of a class. The Admissions Committee will evaluate the transcript and award applicable transfer credit(s).

Note: Transcript evaluations will not be completed until application has been made to Midwest University and all transcripts received. Credit will be considered only for “C-” grades or above in undergraduate programs and for “B-” grades or above in graduate programs. Provisional credit may be granted from certain unaccredited institutions. Provisional credit will be fully accepted after an evaluation of the unaccredited institution, evaluation of the coursework for the courses under consideration, and successful completion by the undergraduate student of the first 12 credit hours of work at Midwest University with a minimum 3.0 GPA or by the graduate student of the first 9 credit hours of work at Midwest University with a minimum 3.5 GPA.

At Midwest University, “accredited” means that the school is listed as accredited in the current issue of Accredited Institutions of Postsecondary Education published by the Council on Higher Education Accreditation or approved by the Ministry of Education for the Republic of Korea and/or other countries.

Maximum allowable transfer credits are as follows:

LIBRARY

Midwest University is exceptionally proud of its library, which opened in September 2003. The library offers resources in several languages, including a large collection in Korean. Midwest University’s library materials were collected based on recommendations from the Director of Library Services and the faculty of the Academic Affairs Committee. Presently, the library houses approximately 36,000 volumes, including general materials, reference materials, audio-visual materials, journals, as well as Midwest University theses and dissertations; additionally, the library provides online databases. A qualified librarian provides library materials to both campus and remote students. Regardless of the student's location, materials will be distributed when requested.

LIBRARY RESOURCES

The Library contains various items available for patron use. Currently, the library has items including audio-visual materials, electronic databases, monographs, anthologies, collections of scholarly essays, reference works, journals, and Midwest University theses and dissertations. These materials are available for patron use subject to library guidelines.

E-Resource

DBpia
DBpia is a prominent online service providing Korean academic journals, conference proceedings, professional journals, E-Books, WebDB, video lectures, and more. All the contents of DBpia are preserved with all the formatting and features of the original printed books and journals. Therefore, users can make use of the same full-text and the detailed bibliographic information in the original books and journals.

KISS
KISS is an online service that provides academic journals, professional magazines, and web databases. It provides full-text downloads as well as information access to abstracts and tables of contents. KISS provides about 3,300 publications, including KCI journals from the first issue to the most current issue.

E-book
E-book provides 9,000 electronic books in all subject areas.
You can use eBooks without restrictions on the length of your loan.

MASTERS DEGREE PROGRAMS

The Master of Arts in Counseling is designed to equip students for Christian leadership in a local church or para-church organization. This includes training in its foundational courses and courses related in the student’s chosen church-education/leadership concentrations.

The Master of Arts in Education is designed to prepare students to serve as educational ministers in a church-based ministry and world mission.

The Master of Arts in TESOL is designed to provide students greater opportunities for teaching specialists to enter broader fields of service and to enable them to teach English with the heart of a servant leader.

The Master of Business Administration is desire of Midwest University to offer a Masters of Business Administration degree so that students may apply the business knowledge gained from the program in areas of Christian and/or secular services.

The Master of Divinity degree is a primary seminary degree for college graduates. The degree requires 96 semester hours to complete in the approved program and it also serves as the basis for doctoral study for those preparing to do research or teach in biblical or theological disciplines.

The Master of Music program is designed to train students to serve their local community, church or para-church organization as professional musicians and leaders in their various applied areas.

DOCTORAL DEGREE PROGRAMS

The Doctor of Leadership degree empowers students with the skills needed to bring about higher performance levels within their organization as they learn about the dynamics of promoting effective leadership development, interpersonal relationships, and group and organizational dynamics.

The Doctor of Ministry degree is a professional degree which is designed for those engaged in pastoral ministries or other areas of Christian service. The doctoral curriculum provides students with an opportunity to select one of the four suggested vocational emphasis.

The Doctor of Music degree is to equip students with superior academic excellence emphasizing intensive church music theory and musical techniques. A learned Christian worldview will also equip students to make positive global impact as dynamic church music leaders.

The Doctor of Musical Arts is to equip students with superior academic excellence emphasizing intensive musical techniques and research in music literatures in their applied area, and also train students to make positive global impact as dynamic music leaders by advancing their performance techniques and profound musical knowledge preparing artists for careers in higher education.

The Doctor of Philosophy in Counseling Psychology is designed to prepare students for leadership roles of the field in the areas of advanced clinical counseling practice, advanced research and supervision. The degree of Doctor of Philosophy allows students to pursue Marriage and Family Counseling, Mental Health Counseling, and Life Design Counseling and Coaching. Additionally, the degree will be awarded upon the student's demonstration of a broad understanding of certain fields of knowledge, ability to conduct independent research, and ability to organize research into an acceptable dissertation that will represent a contribution to a field of study.

The Doctor of Philosophy in Leadership program is designed to help students to be equipped with a higher level of teaching and research capabilities in leadership. This program provides more advanced leadership training in the fields of ministry, adult and brain & gifted education, politics and business. Furthermore this program enables students to apply their scholastic knowledge in their educational, governmental, business, and pastoral organizations.

Teacher in College and Seminary, Missionary, Chaplain Positions, Ministry Director, Department and/or Institutional Head

Doctor of Music / Doctor of Musical Arts
Vocal Performer, Composer, Arranger, Choral Conductor, Professional Music Performer, Music Professor, Music Director of School, Professional Musician in Music Minister in Local Church

Doctor of Leadership / Doctor of Philosophy in Leadership
Professor, CEO, Professional Management, Doctor, Lawyer, Politician, Diplomat, Senior Research Worker, Pastor, Missionary, Counselor

Doctor of Philosophy in Counseling Psychology
Professor, CEO, Doctor, Lawyer, Politician, Diplomat, Senior Research Worker, Pastor, Missionary, Counselor
COURSE DESCRIPTIONS

FLIGHT ATTENDANT (AA)

AA 342 Introduction to Aircraft Cabin Interior (3)
This course provides a general overview of aircraft cabin interior. Students will explore and get familiarized with aerodynamics, various aircraft types, cabin structure, door operations, galley, and lavatory structure.

AA 343 Flight Safety (3)
This course provides a general overview of aircraft flight safety. Students will explore and get familiarized with the concept of safety and security, accident types, causes, handling methods of emergency equipment, countermeasures for inflight fire, decompression, turbulence, brace positions, emergency landing, emergency ditching.

AA 344 Cabin Service English (3)
This course provides a general overview of cabin service English. Students will explore and get familiarized with the vocabulary and sentences to be used by the cabin crew to passengers in each phase of a flight: on the ground during passenger boarding, before takeoff, after takeoff, during beverage service, during meal service, before landing and after landing.

AA 345 Service Manner (3)
This course provides a general overview of service manner. Students will explore and get familiarized with the manners of service mind and customer satisfaction accompanied with neat appearance, positive and polite postures, facial expressions, speeches and greetings.

AA 347 Cabin Service Chinese Language (3)
This course provides an overview of the usage of Airline Cabin Service Chinese language. Students will get familiarized with the use of Chinese language to communicate with Chinese speaking passengers in the cabin by flight phases.

AA 348 In-flight Announcements (3)
This course provides an overview of airline in-flight cabin crew announcements both in English and Korean. Students will explore and get familiarized with the contents of passenger announcements by phases of a flight and emergency situations, and will obtain skills of correct pronunciation, pace and voice tone.

AA 449 Image Making (3)
This course provides a general overview of airline cabin crew image making. Students will explore and get familiarized with the methods of making positive and pleasant facial expressions, make-up, appearance, attire, posture, hair-do and walking, and will acquire image management skills.

AA 450 Introduction to In-flight Food and Beverage Service (3)
This course provides a general overview of in-flight food and beverage service. Students will explore and get familiarized with the concept of western/eastern food and beverages, the types and procedures of inflight food and beverage services, and will obtain the preparation and serving skills.

AA 451 Office Automation (3)
This course provides a general overview of office automation. Students will explore and get familiarized with the concept of office automation, and will obtain computer utilization skills.

AA 452 Airline Reservation and Ticketing 1 (3)
This course provides a general overview of airline reservation and ticketing. Students will explore and get familiarized with the airline reservation and ticketing basics, and will obtain the basic reservation and ticketing related skills.

AA 454 Aviation Practical English (3)
This course provides a general overview of Aviation Practical English. Students will explore and get familiarized with the vocabulary and sentences to be used by the aviation personnel including cabin crew: in travel agency, for flights and during traveling abroad.
AA 455  Airline Interview English (3)
This course provides a general overview of airline interview English. Students will explore and get familiarized with the vocabulary and sentences to be used during airline cabin crew English interview, and will express confidently what is to be said during the English interview.

AA 456  Cabin Crew Interview (3)
This course provides a general overview of airline cabin interview. Students will explore and get familiarized with interview questions and procedures, and will acquire skills to express confidently what to be said during the interview.

FLIGHT DISPATCHER (AD)

AD 431  Weight and Balance (3)
This course provides students with a basic understanding of aircraft weight and balance, advanced Weight and Balance principles and methods. Class discusses differences between Weight and Balance methods, advantages / disadvantages of each, accuracy and safety factors. Class can be tailored to any aircraft or helicopter type.

AD 432  Aeronautical Charts (3)
This course provides students with aviation chart training on the details and information found on the different types of aeronautical charts and Airway Manuals. Additionally, this course also provides an overview of various ICAO and local rules and regulations.

AD 433  Air Traffic Control Procedures and Aviation Communication (3)
This course provides students with intensive instruction and practice in listening and speaking the words and phrases used in pilot-controller-dispatcher radio communication. This course also covers various communication Equipment. Emphasizes accuracy and efficiency in both USA and ICAO (International) format. Air traffic control procedures and responsibilities are taught in this course with topics such as separation minimums, holding procedures and priority handling. Airspace classifications, route structure and flight plans are other topics of study.

AD 434  Airplane Performance (3)
This course provides students with an overview of the Airplane Performance terminologies and the fundamentals knowledge of flight planning. The course includes Takeoff Considerations, Takeoff Performance, Climb Performance, Enroute Performance Considerations and Landing Performance, Single-Engine Performance & Enroute failure considerations (ETOPS).

AD 435  Security, Carriage of Dangerous Goods (3)
This course provides students with a practical knowledge of the aviation security of Passenger, Crew and Aircraft. Students will explore various security Regulations, unlawful interference (high jacking, bomb threat, unlawful passenger), Dangerous Goods and Aeromedical Factors.

AD 436  International Flight Operations (3)
This course provides students with the fundamentals of international flight operations, track systems, oceanic and polar flight planning, international aviation law and ICAO rules and regulations, and contingency planning essentials. Become familiar with the procedures and equipment necessary to operate in different types of airspace, this course is applicable to all aircraft and equipment types.

AD 437  International Flight Planning (3)
This course covers air carrier flight planning to points outside the United States. Federal Aviation Regulations (Part 121) and International Civil Aviation Organization regulations (ICAO), flight planning practice using ICAO forms, as well as extended two-engine overwater operation procedures (ETOPs), and routing, fuel, equipment and weather requirements.

AD 438  Dispatch Resource Management (3)
This course provides students with tools to prevent incidents and improve dispatch team performance through coordination and communication. This includes effective teambuilding, conflict resolution, situational awareness, information transfer and dissemination, problem solving, decision making and dealing with automated systems. The course focus is on prevention of aviation incidents and accidents by improving team performance and communication.
AD 439 Occurrence and Emergency Procedures (3)
This course provides students with an overview of the aviation occurrence, incident, accident, and emergency procedures as a dispatcher. Students will explore various regulations, the role of flight dispatchers, and operator’s procedures related to handling emergencies, incidents, and accidents.

HELIICOPTER FLIGHT (AH)

AH 421 Aerodynamics - Helicopter (3)
This course provides basic knowledge of the Aerodynamics-Helicopter. Student will explore basic theories of flight, Causes and symptoms of Flight principles and Risk factors of helicopter flight.

AH 422 Helicopter Aircraft Systems (3)
This course provides systematic knowledge of the single-engine Piston Helicopter that widely used as initial helicopter. Students will explore R-22 helicopter’s every assembly, sub-assembly and component. This course will make the helicopter more friendly and be helpful in their adaptation of flight training.

AH 429 Rotor-Engine Systems and Procedures (3)
This course provides systematic knowledge of the twin-engine Helicopter including Turboshaft Engine that widely used in advanced aircraft. Students will explore various systems and procedures such as the fuel system, rotors system, Automation (AFCS, SAS), FMC (Flight Management Computer), landing gear system, and engine-out procedures.

AH 430 Helicopter Operations and Management (3)
This course provides operational knowledge of a helicopter’s various missions such as EMS, military missions, firefighting, winch operations (SAR) and cargo missions at sea or in mountainous terrain. Considering environmental hazards, students will explore standard operating procedures and various missions.

AVIATION MANAGEMENT (AM)

AM 101 Aviation English I (3)
This course will introduce basic English for aviation worker. The student will become familiar with terminology such general, operation, maintenance, and system description.

AM 201 Aviation English II (3)
This course will introduce basic of Aviation Industry. The student will become familiar with English for airline issues. Also, they will be able to understand airline’s work or terminology.

AM 311 Introduction to Aviation (3)
This course provides a general introduction of aviation. Students will learn about overall aircraft from how to fly an airplane to how to manufacture it including general aviation (aeronautics) and aerospace (aeronautics).

AM 312 Introduction to Air Traffic Control (3)
This course provides a general introduction (communication) of Air Transport Control. The aim of this course is to understand radio communication between pilot and tower & ground controller. Students will learn specific ATC term and letter.

AM 313 Aviation Safety (3)
The objectives of this Safety Management Systems (SMS) subject is to provide participants with basic knowledge of safety management concepts. In order to achieve its production objectives, the management of any aviation organization requires the management of many business processes.

AM 314 Basic Attitude Instrument Flying (3)
This course provides basic knowledge of the Instrument Flying. Student will explore Instrument systems, Attitude instrument flying, Aircraft (Airplane, Helicopter) control, IFR Navigation and ATC (Air Traffic Control) system.
### IFR Regulations and Procedures (AM 315)

This course provides Knowledge of the IFR Regulations and Procedures. Student will explore ICAO (International Civil Aviation Organization) Aviation Regulations and Procedures by Jeppesen Airway Manual.

### Human Factors (AM 316)

This course provides Human Factors in aviation. Students will learn about why human conditions such as fatigue, complacency, and stress are so important in aviation maintenance. These conditions, along with many others, are called human factors. Human factors directly cause or contribute to many aviation accidents.

### Aerodynamics - Airplanes (AM 421)

This course provides a general overview of the aerodynamics related to airplane flight. Students will learn how to express air flow around a wing with mathematical tools and their solutions. Students will learn various aspects of aerodynamics such as lift, drag, shock wave, nozzle flow, wind tunnel, and modern computational fluid dynamics.

### Aircraft Systems (AM 423)

This course is focused on aircraft system (Cessna 172) based on Pilot’s Operating Handbook. With the course, students will learn actual private pilot license (PPL) course. The purpose of this course is to understand Cessna 172 from General to supplements and learn how to calculate Weight & Balance.

### Multi-Engine Systems and Procedures (AM 424)

This course provides basic Knowledge of the Multi-Engine Systems and Procedures. Student will explore Multi-Engine Aerodynamics, Multi-Engine Systems and Multi-Engine Airplane Maneuver.

### Aerospace Law (AM 425)

This course will introduce the Federal Aviation Regulations (FARs) which are part of Title 14 of the Code of Federal Regulation (CFR). The student will become familiar with regulations to be a private pilot in U.S. The aim of this course is to understand the different parts of FARs (Part 1, 21, 39, 43, 61, 71, 91).

### Instrument Flight Instructor (AM 427)

### Aviation Meteorology (AM 428)

This course provides basic Knowledge of the Aviation Meteorology. Student will explore Basic Weather Theory, Weather Patterns, Weather Hazards, Forecasting Process, Weather Information and Weather Interpretation.

### Aircraft Accident Investigation (AM 460)

This course provides a study of the general principles and procedures involved in an aircraft accident investigation. Students explore both FAA and National Transportation Safety Board (NTSB) aircraft accident investigative techniques and how the NTSB determines probable cause.

### Crew Resource Management (AM 461)

This course designed to improve flight safety through the understanding of the Human Factor in Aircraft accidents and incidents. Students explore the history of CRM, CRM concepts of Communication Processes, Problem Solving, Group Dynamics, Workload Management, and Situational Awareness. Crew Resource Management (CRM) is training which aims to reduce aviation accidents through improving crew performance.

### Air Navigation (AM 462)

This course provides the ability of planning pilot's flight on the ground. Students explore Basics of navigation, Magnetism and compasses, DR (Dead reckoning) navigation, Charts, and Radio Navigation (radio aids, radar, GNSS).

---

### AVIATION TECHNICIAN (AT)

#### Airline Management (AT 360)

Students are learned to the various internal departments of an airline and their relationship to each other. Students are also learned to external opportunities and threats to the future viability of the various air carriers.
AT 361  Aviation Maintenance Management (3)
Students are learned a comprehensive examination of organizational maintenance procedures, regulations and organization management. Emphasis is on maintenance planning, quality control, and Safety Management System, and cost management.

AT 362  General Aviation Maintenance (3)
This course introduces students to aircraft terminology and basic knowledge, physics, aircraft drawings, maintenance forms and records, Federal Aviation Regulations (FARs), materials and processes, the exercise of mechanics privileges, and shop safety practices as they pertain to every day shop problems.

AT 363  Basic Aircraft Structure & Repair (3)
This course introduces students to the use of wood, fabric, composites, fiberglass, plastic and metal as materials for aircraft structures. Upon completion of the projects in the course, students learn methods of inspection and repair of aircraft structures. Safety precautions are emphasized when using the various materials found in aircraft structures.

AT 364  Airframe Systems & Components (3)
This course introduces students to aircraft inspection and record keeping procedures, including doors and interior furnishings, fire detection and extinguishing systems, aircraft instruments, aircraft electrical systems, and communication & navigation systems.

AT 365  Aviation Electrical & Electronic systems (3)
This course introduces students to the basic concepts of electricity and magnetism. Methods of generating alternating and direct current are studied. Students will learn the proper methods of overhaul, inspection, installation and repair of aircraft electrical components.

AT 366  Engine Technology (3)
This course introduces students to aircraft engine fuel metering systems, ignition systems, lubricating systems, ice and rain control systems and indicating systems. Students learn the correct procedures for inspecting, testing, overhauling, & troubleshooting engines systems & components.

AT 367  Aviation Maintenance Training Careers (3)
Designed to prepare students for a career in aviation. Explores aviation employment opportunities and research aviation companies. Includes interview and resume preparation and various work-based learning experiences such as internships and aviation maintenance job shadowing. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students’ topic of study.

BIBLICAL STUDIES (BS)

BS 301  Interpretation of the Bible (3)
This course is an introduction to the nature of the Bible, a survey of historical and contemporary hermeneutical approaches; and the principles of grammatical, historical, theological and practical study-application.

BS 624  Biblical Hermeneutics (3)
The purpose of this course is to enable students to understand what the goal of interpretation is, what part presuppositions play in interpretation, and how to arrive at the meaning of an ancient text as well as its present significance.

BS 801  Biblical Studies (3)
This course is designed to improve one’s ability to interpret the Bible through exegesis. This includes the Old Testament and the New Testament.
BUSINESS MANAGEMENT (BU)

BU 205 Principles of Management (3)
An introduction to the management functions of planning, organizing, leading, and controlling, and their application to the changing world of business. Particular emphasis is placed on process-centered operations and continuous quality management, toward a goal of total business effectiveness.

Focus is placed on leadership styles and motivational techniques and various organizational settings. Topics include issues in the design of organizations, the corporate/organizational culture, the design and enrichment of jobs, and communication within organizations.

BU 308 Innovation Management(3)
How technology-based innovations, innovations developed through science or engineering expertise, are leveraged from the innovative idea or concept to successful commercial products. This course examines the frames that guide the technology commercialization process and applies these frames by using cross-functional teams to investigate a commercialization project from opportunity scanning to exploitation.

BU 350 Operations and Supply Chain Management (3)
This course is about the study of the process directly related to the creation and distribution of goods and services. Increasingly, these operations are taking place outside the boundaries of a traditional enterprise. This course teaches students how to analyze processes, ensure quality, create value, and manage the flow of information, products and services across a network of customers, enterprises and supply chain partners.

BU 402 International Business (3)
An introduction to the management functions of planning, organizing, leading, and controlling, and their application to the changing world of business. Particular emphasis is placed on process-centered operations and continuous quality management, toward the goal of business effectiveness.

BU 404 Strategic Management (3)
Analysis of the responsibilities of general management through critical examination of case studies. Systematic approach to understanding management situations, and the ability to formulate and execute a suitable strategy through planned policy and organization. This course provides a base for continued growth in executive skills.

BU 410 Decision Analysis for Managers (Statistics and Math) (3)
This course focuses on statistical decision-making in today’s dynamic business environment where products and processes are continuously improving. Decisions by modern managers are increasingly data driven and require a range of statistical skills including, gathering and describing data, designing samples and experiments, drawing statistical inferences and conclusions, evaluating the confidence of conclusions, developing regression models for anticipating future behavior and use of statistical quality control and six sigma to drive process improvement.
CHRISTIAN COUNSELING (CC)

CC  803  Marriage and Family Counseling II (3)
A study of individual, group, couple, and family therapy settings in a positive Christian context. This course explores the many needs in our society for personal growth, help in decision-making, counseling for marriage and family relationship, stress management from a pastoral assessment and treatment point of view. CO 831  Cognitive Neuroscience of Aging
How does the brain change as we age and what are the implications for cognition? This course covers new developments in research in cognitive neuroscience and aging with a focus on the consequences for memory and emotion.

CO 832  Advanced Child Psychological Assessment
This class focuses on advanced comprehensive assessment skills for understanding psychological testing and evaluations of children and adolescents. Emphasis is placed on applying critical thinking and diagnostic reasoning skills in assessing and diagnosing the psychological status of children and adolescents.

CO 833  Doctoral Practicum (3)
Students will complete an advanced supervised counseling-related experience in a professional setting. The primary focus will be on the skills and development of the advanced clinical skills of the DCP/Ph.D counselor under the supervision and guidance of faculty in that setting. Students will actively participate in counseling and other counseling education and supervision related situations with individuals and groups.

CO 834  Doctoral Internship I (3)
This course is designed to provide students with supervised experiences that reflect the activities in the field of counselor education. All doctoral interns must have internship experiences in supervision, teaching, and one additional doctoral competency (counseling, research or leadership/advocacy). Under the guidance of faculty or supervisors, the primary focus of this internship is to help doctoral students develop the knowledge, skills, and dispositions required for ethical and competent practice as a counselor in counseling, research, or leadership and advocacy.

CO 835  Doctoral Internship II (3)
This is a subsequent course of CO 834. Learners engage in an internship that is a distinctly defined, supervised clinical experience in which the learner refines and enhances counseling skills and integrates and authenticates knowledge and skills appropriate to being a professional counselor.

CAPSTONE (CP)

CP 490  Capstone (3)
The capstone course is designed as a final semester summative course for students to exhibit how their educational experience may positively influence their career. Details will be described in the Capstone syllabus. The Capstone will have three sections: 1) a research project agreed upon with their academic advisors prior to the final semester 2) a comprehensive examination and 3) participation in the graduation seminars.

CP 690  Capstone (3)
The capstone course is designed as a final semester summative course for students to exhibit how their educational experience may positively influence their career. Details will be described in the Capstone syllabus. The Capstone will
have three sections: 1) a research project agreed upon with their academic advisors prior to the final semester 2) a comprehensive examination 3) participation in the graduation seminars.

**CP 890 Capstone (3)**
The capstone course is designed as a final semester summative course for students to exhibit how their educational experience may positively influence their career. Details will be described in the Capstone syllabus. The Capstone will have three sections: 1) a research project agreed upon with their academic advisors prior to the final semester 2) a comprehensive examination 3) participation in the graduation seminars.

**COMPUTER & INFORMATION TECHNOLOGY (CS)**

**CS 201 Introduction to Information Technology (3)**
It course explores principles and concepts that underlie information processing, including information theory, models of information storage and retrieval, and human cognition. Basic processes of information systems analysis, design, and development will be examined.

**CS 301 Web Programming (3)**
This course gives students a look at the fundamental concepts of Internet and WWW communication. Students will have practice to make their web pages through the Web programming. It will cover Web programming languages such as HTML and HTML5, ASP, PHP as well as covering server-side scripting, security issues.

**CS 305 Database Design and Management (3)**
This course covers database design and SQL programming. Students study database fundamentals to include database development, modeling, design and normalization. In addition, students are introduced to database programming. Students gain the skills and knowledge needed to use features of database software and programming to manage and control access to data.

**CS 310 Introduction to E-Commerce (3)**
This course introduces the concepts, vocabulary and procedures associated with E-Commerce and the Internet. The student gains an overview of all aspects of E-Commerce. Topics include development of the Internet and E-Commerce, options available of doing business on the Internet, features of Web sites and the tools used to build an E-Commerce web site, marketing issues, payment options, security issues and customer service.

**ECONOMICS (EC)**

**EC 310 Econometrics (3)**
This course deals with the methods economists use to test theories and conduct economic forecasts. This course will provide the student with the ability to design, conduct, and evaluate empirical work in economics and other social sciences. The primary focus of the course is on the final project that consists of a research paper that will integrate library research, economic theory, and econometric analysis.

**EC 320 Macroeconomic Analysis (3)**
This course is about macroeconomics and the global economy, including topics in monetary and international economics. The goal is to provide a unified framework for understanding macroeconomic events and policy, which govern the global economic environment of business. The course analyzes the determinants and behavior of employment, production, demand and profits; inflation, interest rates, asset prices, and wages; exchange rates and international flows of goods and assets; including the interaction of the real economy with monetary policy and the financial system.

**EC 450 Real Estate Economics (3)**
This course covers economic concepts to analyze real estate markets, values, and trends. It focuses on market dynamics in the market, with an emphasis on how urban growth and local and federal government policies impact urban development and real estate pricing.
ED 551 Survey of Education (3)
This course will provide students with framework of education through reflection of curriculum theory. Students will have an educational framework by which to understand how theory and one's philosophical views can impact the design, development, and implementation of curriculum and instruction. With this in mind, this course focuses on exploring and applying an understanding of Scholar Academic, Social Efficiency, Learner Centered, and Social Reconstruction ideologies in various instructional settings.

ED 552 History and Philosophy of Education (3)
This course will examine historical and philosophical foundations of education in our socially and culturally diverse country. It will provide introduction to thoughts of influential educations and the principles and ideas underlying educational policies; development of personal philosophy of education through identification of ideologies behind educational systems, curriculum, and goals.

Students will explore the areas of applied educational psychology to teaching, cognitive development, social development, and cultural development. They will design, develop, modify, and evaluate curriculum and instruction in various educational settings according to child/adolescent development.

ED 554 Teaching Methodology (3)
This course will guide students in the selection, implementation, and evaluation of a variety of instructional strategies adapted to meet the needs of all students. By examining research findings related to effective teaching practices, students will probe the theories and research evidence applicable to the various models.

ED 555 Assessment and Evaluation of Education (3)
This course examines the purposes, paradigms and types of assessment and evaluation used in education, and in particular the innovations associated with them. Their roles in directing learning, provision of feedback to students, feedback strategies to enhance the delivery of instructions and curriculum evaluation, and ensuring standards are achieved are explored.

ED 556 Educational Administration (3)
This course will provide an introduction to educational administration as a field of specialized study. It examines traditional as well as emerging paradigms in the study of educational administration, with specific emphasis on the theoretical and conceptual constructs important for understanding administration of learning environments.

GIFTED EDUCATION (EG)

EG 601 Cognitive Neuroscience and Education (3)
This course is designed to provide a framework for how mental functions occur in neural circuits, namely the development and emotion of new measurement techniques combined with physiological and cognitive psychology for all nervous systems, including the brain, and neuroscientists and psychologists.

EG 602 Developmental Psychology: Left brain, right brain training (3)
This course is designed to provide understanding of how the left and right brain work in developmental psychology and to provide training methods for balanced development of the left and right brain.

EG 603 Introduction to Neuro Feedback (3)
This course is designed to provide EEG training using EEG information and methods to improve clinical symptoms in general to improve potential. Electroencephalogram (EEG) is a weak electrical signal at the level of the uV, which is always naturally occurring in vivo and usually oscillates less than 50 times per second.
EG 604  Electrogram Analysis (3)
This course is designed to provide students with EEG analysis techniques and brain wave analysis principles. In order to analyze the EEG signals statistically or repetitively, it is necessary to measure with the EEG and convert the measured signals into numerical data through an appropriate process.

EG 605  Introduction to BGA Counseling (3)
This course is a comprehensive analysis of the brain divided into eight areas based on brain theory. It is designed to analyze the network conditions of the right brain, the four areas of the brain and the human realm, and to provide the prescription to the students.

The BGA test is unique and unique in its ability to distinguish left and right brain propensity, originality personality analysis (learning, personality, emotional domain) and 8 comprehensive indices (emotion, sociality, screen syndrome, etc.).

EG 607  Survey of Gifted and Talented Education (3)
This course can be considered in addition to school surveys, social education surveys and home education surveys. The research techniques used in educational research are designed to provide learners with progress from simple personal observation reports to comparative studies, historical method questionnaires, intelligence tests and educational measures.

EG 608  Curriculum for Gifted Education (3)
This course involves gifted education goals and components of the content, processes, outputs and learning environment. The goal of gifted education is designed to provide the skills to be creative producers by understanding complex and abstract content and thinking at a higher level.

EG 610  Gifted and Talented Program (3)
This course there are various educational themes mainly concentrated in the field of science. Gifted students are designed to give talented students access to gifted education programs as well as to improve the quality of gifted education by ensuring that they are educated in general schools.

EG 611  Education of the Exceptional Child (3)
This course is designed to provide a way for you to ask your self-directed learning method to be ashamed and questioned for excellent child education.

EG 612  Education Research (3)
This course is systematically collecting and analyzing data related to the field of education. Research can involve a variety of methods. Research has been designed to provide a variety of educational aspects, including student learning, pedagogy, teacher training, and classroom mechanics.

AVIATION ENGINEER LICENSING (EL)

EL 301  Introduction to Aviation Maintenance Technology (3)
This course is a study of operational basic aviation English and some basic principles of physics and mechanics. Covers aviation maintenance technology careers, including program admission and completion requirements, continuing training and certification requirements on FAR, general industry safety standards, Ground handling and career opportunities within the aviation maintenance industry.

EL 302  Aviation Maintenance Technician General (3)
Covers several general aircraft maintenance subjects including power tools, shop equipment, aircraft hardware, fluid lines and fittings, non-destructive testing methods, heat treatment, aircraft cleaning, rigging, sheet metal and corrosion control.

EL 303  Aircraft Structures (3)
Examines structural designs and methods of inspecting the aircraft to assure continued operation in the "as engineered" configuration. This course introduces students to the use of wood, fabric, composites, fiberglass, plastic and metal as materials for aircraft structures. Upon completion of the projects in the course, students learn methods of inspection and repair of aircraft structures.

EL 304  Aircraft System (3)
Covers inspection and repair of aircraft landing gear and hydraulic system components.
Examines various airframe systems. Includes ice and rain protection, cabin atmosphere, position and warning, fire protection, Pneumatics and Landing Gear.

**EL 305 Reciprocating Engine Theory & Maintenance (3)**
Covers aircraft reciprocating engine theory and various maintenance procedures and techniques. Includes the use of manufacturer's publications.

**EL 306 Turbine Engine Theory & Maintenance (3)**
Presents general theory for all turbine engines. Includes maintenance inspection, checking, servicing and repairing turbine engines and turbine engine installations.

**EL 307 Basic Electrical & Electronics (3)**
This course is a study principle of electricity, direct current circuits, electrical units, Ohm’s law, Kirchhoff’s voltage and current laws, and solutions to complex circuits using Thevenin’s theorem and loop equations. Inductance, capacitance, magnetism, electromagnetism, induction, troubleshooting principles, and AC are also introduced.

**EL 308 Advanced Electrical & Electronics (3)**
This course is a study of aircraft electrical systems, system installation, maintenance, and problem analysis. This includes AC theory, DC and AC power distribution systems, and AC generation systems and a study of aircraft engine ignition systems, starters, generators, voltage regulators for turbine and reciprocating engines, and storage batteries and Instruments, communication & Navigation System.

**ENGLISH (EN)**

**EN 101 English Reading Skills (3)**
This course is designed to prepare students to succeed in academic courses delivered in English. Emphasis is placed on reading skills and vocabulary acquisition. Students participate in pre-reading discussions and exercises, speed-reading activities, skimming, scanning, analyzing the main ideas, and understanding inferences.

**EN 201 English Composition I (3) *prerequisite EN 101**
This is an introductory writing course designed to improve skills in the basic conventions of writing. Students develop strategies to compose writings from personal expressive writing to text-based expository essays. Students write to observe, to integrate, and to communicate in response to assigned readings.

ESL 201 Listening and Speaking (3)
Instruction will emphasize auditory comprehension of new vocabulary in the context of the spoken word. A variety of activities will be used to give the student listening experiences, followed by practice in the verbal reproduction of those experiences.

ESL 202 Reading (3)
This course will develop word recognition, spelling and vocabulary improvement as the student experiences practice in both oral and silent reading with resources such as the text materials, print and the Internet.

ESL 203 Writing (3)
Writing emphasis will focus on gaining a greater familiarity with more complex sentences in the context of multiple-sentence paragraphs. Students will move from shorter simple sentence construction to the use of connecting words to create more mature writing.

ESL 204 Grammar (3)
Students will examine the several parts of speech normally employed in the use of English and will gain a greater understanding of how and where those parts form the basis for English communication.

ESL 301 Listening and Speaking (3)
By developing listening and response strategies, the student will have opportunities to understand and reproduce the English language at a greater speed. Increased contextual vocabulary will result in an improved ability to understand and repeat the flow of English.

ESL 302 Reading (3)
Using multiple written sources of varying lengths, students will explore main ideas, themes, symbolism, and recognition of some figurative language while improving their active vocabulary.

ESL 303 Writing (3)
Students will gain skills in increasing sentence and paragraph maturity by understanding how to add descriptive detail through “brainstorming” methods and by drawing on dynamic words to add clarity and interest to their writing.

ESL 304 Grammar (3)
This study will explore complex English syntax as the student moves to more sophisticated tenses, to reproducing the four main types of sentences, to comparatives and superlatives, in addition to various other grammar elements.

ESL 001 Intensive Pronunciation Study (3)
This intensive course is designed specifically for students who have difficulty mastering in English pronunciation. Students will experience practice in various vowel and consonant sounds, vowel glides, consonant digraphs, and normal intonation and sentence flow. Instruction will focus on targeted sounds, followed by practical use in sentence contexts.

ESL 011 Introduction to American Culture (3)
This course is designed to familiarize high-intermediate to advanced level students with American life and to help facilitate their adjustment to American culture. The class will introduce students to basic concepts and current issues of American society and help them learn more about US history, geography, government, and popular culture.

EV 520 Personal Evangelism and Discipleship Training (3)
This course explores the theological base for evangelism and how to use the Scriptures in leading people to Christ. Principles for spiritual growth will explain how new believers can grow to maturity in their faith, and then be able to evangelize and disciple to others.

FINANCE & ACCOUNTING (FA & FN)

FA 201 Principles of Accounting (3)
This course is the comprehensive presentation of basic principles of financial and managerial accounting including origin, purpose, and effect with emphasis on application.

FA 202 Principles of Finance (3)
This course is the overview of financial decision-making process focusing on the creation of wealth. Topics covered include the time value of money, how stocks and bonds are valued, financial decision-making within a firm, an overview of financial markets, and investment banking.

FA 210 Financial Management (3)
This course is about capital investment decisions using the information of cash flows and discounts. It covers the basic principles of investing: time value of money, discounted cash flow, diversification and leverage on portfolio risk, risks and expected returns in securities markets, and capital market efficiency.

FA 230 Investment Management (3)
This course studies the concepts and evidence relevant to the management of investment portfolios. Topics include diversification, asset allocation, portfolio optimization, factor models, the relation between risk and return, trading, passive (e.g. index-fund) and active (e.g. hedge-fund, long-short) strategies, mutual funds, performance evaluation, and long-term investing.

FA 310 Financial Statement Analysis (3)
This course covers current conceptual and theoretical valuation frameworks and translates those frameworks into practical approaches for valuing companies. Relevant accounting topics and appropriate finance theories are integrated to show how to implement the valuation frameworks discussed on a step-by-step basis. This course teaches students how to obtain the required information for valuing companies from financial statements and other information sources in a real-world setting.
FA 430 Equity and Fixed Income (3)
This course covers equities and fixed-income securities (including fixed-income derivatives) and introduces the markets in which they are traded, as well as to the tools that are used to value these securities and to assess and manage their risk.

FA 440 Derivatives (3)
This course teaches the intuition and skills needed for pricing and hedging derivative securities and using them for investment and risk management. In terms of methodologies, we apply the non-arbitrage principle and the law of one price to dynamic models through three different approaches: the binomial tree model, the Black-Scholes-Merton option pricing model, and the simulation-based risk neutral pricing approach.

FA 534 Issues in Accounting and Information Systems (3)
This course deals with the issues of accounting information systems. The covered topics are accounting information flows, information system designs, and internal accounting controls.

FN 550 Currencies and Global Finance (3)
This course is an introductory course about the foreign exchange markets. Its topics are economic impacts on exchange rates changes, foreign exchange risk, and capital deployment policies in a global finance environment.

FIELD PRACTICUM (FP)

FP 106 Field Practicum (1)
This is a field practicum involved in the student’s applied area which may be accomplished under the supervision of a faculty member or experienced advisor. It will be assigned responsibilities involving musical activity.

FP 206 Field Practicum (1)
This is a field practicum involved in the student’s applied area which may be accomplished under the supervision of a faculty member or experienced advisor. It will be assigned responsibilities among which there may be such direction as ensemble which is like a performance class focusing on two or more different instruments (e.g. piano and other instruments including voice). Each member is coached on rehearsal techniques, diction style (if voice major), and ensemble issues which will be designed in a way to prepare each member.

FP 306 Field Practicum (1)
This is a field practicum involved in the student’s applied area which may be accomplished under the supervision of a faculty member or experienced advisor. It will be assigned responsibilities among which there may be such direction as teaching techniques through which students can receive training on how to become effective artist-educators in a variety of pedagogical methods and materials as they prepare and deliver educational presentations.

FP 310 Field Practicum I (1)
This field practicum is required for all undergraduate students. The student, under the supervision of an experienced advisor, will be assigned responsibilities.

FP 311 Field Practicum II (1) *prerequisite FP 310
This second level field practicum is required for all undergraduate students. The student, under the supervision of an experienced advisor, will be assigned responsibilities.

FP 312 Field Practicum III (1) *prerequisite FP 310
This third level field practicum is required for all undergraduate students. The student, under the supervision of an experienced advisor, will be assigned responsibilities.

With the increase in the quantity and quality of the sports industry, the importance of personnel management in sports-related organizations and the achievement of creative goals through efficient management of sports organizations is emerging. This course examines the basic concepts, theories, and field cases needed to understand effective organization and personnel management.

**SP 510 Study on Sports and Mass Media (3)**
Modern sports provide the general public with appropriate information and attractions, and the public’s desire for sports is diversified and the influence of the media is increasing, resulting in a new form of industry. Therefore, sports news, broadcasting, and media sports policy interventions have influenced our society with many problems, from sports competitions to athletes, content interventions, and sports star making. Therefore, the main focus is on analyzing the role of mass media and providing effective directions for all areas of sports.
THEOLOGY (TH)

TH 201 Bible Doctrine I (3)
The course aims at the understanding of Christian doctrine based on biblical and evangelical theology. It consists of what the Bible teaches about some of the major realities such as the Word, God, creation, man, and sin.

TH 301 Bible Doctrine II (3)
This course is a continuation of Bible Doctrines I. It deals with some of the major realities such as Christ, the Holy Spirit, salvation, the church and last things. The course aims at the understanding of Christian doctrine based on biblical and evangelical theology.

TH 401 Theology of Spiritual Life (3)
This course explores the call to the ministry, spiritual and physical qualifications for the ministry, developing and maintaining spirituality in the ministry, and the prayer life of the mature Christian.

TH 514 Modern Theology (3)
This course is a study of the “mainstream” systems of theology today, along with the more esoteric contemporary systems. Insight is also given into emerging Third World theologies.

TH 521 Systematic Theology I (3)
Christian leaders are responsible for understanding Christian beliefs in relation to biblical foundations and for expressing their understanding in the today’s context. The course aims at the understanding of Christian doctrine based on biblical and evangelical theology. The course deals with the themes of Christian doctrine such as the doctrine of the Word of God, the doctrine of God, and the doctrine of Man. Each theme should be approached beyond general information and reflected on biblical, historical, and contemporary aspects.

TH 523 Systematic Theology II (3)
This course is a continuation of Systematic Theology I. The course deals with the themes of Christian doctrine, such as Christology, pneumatology, soteriology, ecclesiology and eschatology. Each theme should be approached beyond general information and reflected on biblical and historical aspects.

TH 802 Biblical Theological Reflection in Ministry (3)
This course assists the students in integrating biblical and theological studies into the major areas of practical ministry.

TESOL (TS)

TS 501 Linguistics (3)
Students will examine a broad range of linguistic structures for the purpose of understanding the components of language and how those elements relate to one another, in addition to applying their understanding to the study of language.

TS 502 Second Language Acquisition (3)
This course will examine the similarities and differences between language acquisition, language learning, and the necessity of understanding their respective roles and significance in language pedagogy.

TS 503 Methods of Teaching ESL (3)
ESL methodology has often concentrated on adult literacy programs. The course offers detailed examination of methods pertaining to a wide range of learners of various ages.

TS 504 Language and Culture (3)
Customs, home-life, traditions and religion are among several factors that impact languages. This course will present the student with the opportunity to turn these factors into successful experiences.
Midwest University 2019-2020

TS 505  Assessment and Testing (3)
The aim of this course is to present basic concepts of language proficiency assessment and to give ESL teachers the skills necessary to interpret test results so that their teaching might be focused on the areas of greatest concern in their chosen environments. Students will investigate not only initial placement assessments, but also ongoing testing.

TS 506  Curriculum and Materials Design (3)
By assessing needs, students learn to develop goals and a curriculum which have a broader base than individual lesson planning. Emphasis is placed on developing course outlines for a particular set of needs, then creating course units and lesson plans from a wide range of available materials.

TS 507  Program Management (3)
This course will address issues such as describing and marketing the ESL program, budgetary considerations, and personnel development.

TS 508  Teaching Grammar (3)
This course will emphasize the importance of knowing how grammar awareness plays an integral part in the learning of appropriate oral and written discourse. Students will gain an appreciation of how good grammar can lead to good learning acquisition.

TS 509  Teaching Reading and Writing (3)
Students will explore theories and issues relating to reading and writing in the ESL classroom and will have the opportunity to gain skills in the practical application of these theories.

TS 510  Teaching Pronunciation (3)
Pronunciation is often a problem for English language learners. This course will address these problems by analysis of phonetics and phonology and applying techniques, which can assist the ESL teacher in identifying and correcting those problems.

TS 511  Sociological Implications for Language Study (3)
The basic tenets of seven world religions will be examined, as well as examples of how these religions have embedded themselves in the language, thinking, and lifestyles of various societies.

TS 512  Practicum in ESL (3)
Midwest University ESL programs will be used as a base for students to apply principles learned in lesson planning, curriculum development, methods, and other practical ESL classes. Attempts will be made to coordinate the student’s area of concentration (elementary, middle school and high school) with students of approximate age level by establishing cooperative programs with local educational institutions.

TS 513  Second Language Research Methodology (3)
This course will familiarize students with the basic types of research design in second language acquisition studies and provide a feel for what research activities are like in second language studies by engaging students in several roles within a variety of mini-studies.

TS 514  Socio-cultural Theories in SLA (3)
This course will explore a view of learning and teaching the second language in view of current socio-cultural theories in the SLA and will outline the core statement of socio-cultural theory and its operationalizing in learning.

TS 515  Understanding American Language and Culture (3)
Students will explore the nature of American English as one of the world English and American cultural patterns in terms of history, language and tradition so that students can cultivate a broad view of the U.S. culture within the spectrum of world cultures.
